The Easy, Affordable Way to Adjust Your HDTV for Perfect Color and Clarity

It's a fact-**TVs** are setup "hot" by the manufacturer for display in brightly lit showrooms? That means their settings out-of-the-box often aren't ideal for home viewing. Blacks can look washed out, whites too bright, details even fuzzy. The fast, easy fix without retaining a professional ISF calibrator with \$10,000 worth of instrumentation: the award-winning Monster/ISF HDTV Calibration Wizard DVD, recently named Electronic House magazine's 2006 Product of the Year!

Become Your Own Video Expert

The Monster/ISF HDTV Calibration Wizard DVD is the fastest and easiest way to bring out the best in your HDTV. In series of easy, step-by-step video tutorials, pop star **Jenna Drey** walks you through the entire HDTV calibration process. In minutes, you'll learn how to optimize your TV's display levels for maximum HDTV performance, so you always get the richest blacks, most natural color and absolute sharpest picture from your HDTV.
